

Róng Kít - Setup Windows

Installation

Font: Right-click the file *MainwaringRong.otf* and chose *Install*. Repeat the procedure with *DawaLepcha.otf*.

Keyboard: Drag the file *Rong - Lepcha.exe* to any convenient place (actually, it's a *Program File*). Start the application with a double click when Lepcha input is required. A new icon appears at the *Notification Area* when active.

Use

Open a new document in Libre Office.
(Adobe InDesign, CorelDraw or GIMP may be used as well.)

Select one of the Lepcha fonts, i.e. *Mainwaring Rong* or *Dawa Lepcha*.

Start *Rong - Lepcha.exe*.
Write in Róngríng.

Exit *Rong - Lepcha.exe* when finished.
